December, 2014

Andy,

I know this is long overdue, but I wanted to thank you so much for making what could have been an excruciating ordeal into an easy, smooth process facilitated by you and your staff.

My father's estate consisted of hundreds of art books and a large collection of fine artwork among 56 years of accumulated possessions. I was astounded at the amount of research that you & Linda did to determine a fair and adequate price for each and every piece.

I was blown away when I came into the house after the sale was set up. Your staff made the house look like a fine store with shelves and display cases for all the pieces with everything priced & displayed. I couldn't believe that this was all done in a few days time.

Even more amazing was the process after the sale was completed. Everything that did not sell was donated to a charity and listed for tax deduction, then cleaned out. The house was completely emptied in one day – and I mean everything!!! The house was ready for sale the next day. On Wednesday, everything was settled financially and we were done. It was amazing. The entire process took 10 days, start to finish.

So again I want to thank you for a job well done.

Sincerely,

David Efros and Family
